Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The terminal disclaimer, filed 02-09-04, has been received and is still awaiting review by the appropriate legal instruments examiner. Accordingly, the prior rejection under obvious type double patenting is hereby stayed, pending the final approval of the terminal disclaimer. The delay in the aforementioned review is regretted.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title; if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

4. Claims 1-5 and 9-16 are rejected under 35 U.S.C. 102(a) as being clearly anticipated by Applicant's admission of the prior art.

The reasons for this rejection are as set forth in paragraph 5 of the last Office action.

5. Claims 6-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Applicant's admission of the prior art.

The reasons for this rejection are as set forth in paragraph 6 of the last Office action.

6. Claims 1-16 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Rosenblatt ('728).

The reasons for this rejection are as set forth in paragraphs 7 and 8 of the last office action.

Response to Arguments

7. Applicant's arguments filed 02-09-04 have been fully considered but they are not persuasive. Specifically, applicant argues that the presently amended claims now require an analysis member which is used to assay for an analyte of interest in a sample. However, the present amendments made to the preamble of the claims in no way require such use. The claims are directed to a device. Any recitation of intended use of the claimed device can at most require from the prior art the cabability of such use. Since all the structural elements of the claimed device are present in or made

obvious by the prior art as set forth in the grounds of rejection, any such use would be capable to the same extent.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
